PA'S AWFUL IGNORANCE.

Most every day when I'm at school The teacher tells us things About the birds and animals And presidents and kings,

And then at night, when I ask pa If what she says is so, He reads his paper right along And says: "Oh, I dunno!"

One day she told us that the world Is round just like a ball, And that there's nothing down below It's standing on its tail;

I ask pa if she told the truth, He reads his paper though, And put his feet upon a chair And said: "Oh, I dunno!"

And once the teacher said the sky Ain't heaven's floor and tried To make us think of angels walk Along the other side.

And so that night I ask my pa And all he said was: "Oh, Don't bother me about such things I'm busy—I dunno!"

One time a bigger boy he said The doctor didn't bring My little baby sister in

A box—no such thing! That night I ask pa if what That big boy said was so, And pa, he answered: "Oh, keep still, Confound it, I dunno!"

I used to kied of thick somehow That my pa knew a lot— But that was wrong, or if he did I guess that he's forgot.

Since I've got started into school, Most every day or so I hear about a dozen things Pa doesn't seem to know.

Modern Drug Dealing.

The elements that enter into perfect drug service are, we believe, these: Competency, quality, courteousness and a fair profit policy. We endeavor to give all these the fullest expression. While in some things there is legitimate need of varying qualities, in medicinal drugs there is not. We handle one grade only—the highest—yet our prices are apt to be less than inferior are sold for.

THE INTERIOR JOURNAL

E. C. WALTON.

W. P. WALTON.

See Candidate for Railroad Commissioner for the 24 District, subject to the will of the democracy.

DEMOCRATS need not bank on republican division as an assurance of success in the next campaign. Mr. Cleveland never said a truer thing than he did in a recent interview that the republicans may get badly mixed up with themselves at times, but they seem to have the faculty of pulling together at convenient times. This is the conclusion at which long observation of republican methods has brought the only surviving ex-president's mind. "The cohesive power of public plunder is stronger than all the animosities of dissatisfied republican factions and individuals." The bolters are always reconciled before reaching the vicinity of the ballot box. If the republican party is overthrown it will be because its policies are not approved by a majority of the people. It will not lose its power through disruption and a divided vote until the hostility of rival factions shall ripen into a degree of intestine hate far beyond that which at present exists. The democrats will gain a national victory when, as in 1884 and 1892, the voters of the country make up their minds that an absolute change of parties and policies is necessary for the general good and for the prosperity of all classes. That result will not come through mere factional differences in the republican party, which are not taken to the polls.

Of course John Rhea was unseated. A republican Congress always sees to it that when the claimant, no matter how poor a case he has, will vote with that party. McKenzie Moss came near being born an idiot and ought now really to be in a feeble minded institute, but he is a turncoat and ready to do his master's bidding. By the way, in speaking in his own behalf, Mr. Rhea got in a good one on Congressman Boreling, who spoke for seating Moss. Boreling scored Goebel for passing a law making a contest possible. Rhea said Boreling was both "partisan and ignorant. The election laws of Kentucky had always permitted contests, and if Goebel had never been born, a candidate could still have recourse to a contest and always had such privilege." It is strange how stupid some republicans are who parade as wise men. Even Deboe would have known better than to make such a break as Boreling. When Moss was sworn in the sergeant-at-arms of the House transferred to his account the sum of \$5,500, being the amount due him for salary since March 4, 1901, and mileage between Bowling Green and Washington. This will be increased by \$2,000 allowed contestants and contestees as attorney's fees. In round numbers Moss became \$7,500 richer by the action of the House.—Lex. Democrat.

A SENSATION was caused in Congress by a unanimously adopted resolution offered by Mr. Richardson, the democratic leader, providing for a committee of seven to investigate a sensational story of bribery in connection with the transfer of the Danish West Indies to the United States. The resolution is based on the secret report of Walter Christmas, the Danish government's confidential agent, in which he shows that \$500,000 was set aside to bribe members of Congress and newspapers. Abner McKinley is mentioned specifically as a man worth buying.

EX-SHERIFF H. H. HENNINGER, of Wayne county, is announced as a candidate for the democratic nomination for State treasurer. Mr. Henninger is one of the most energetic workers of his party, made Wayne county a model officer and would be a credit to the State in any capacity he might serve.

A NORTH CAROLINA man armed himself with the hind foot of a rabbit killed in a graveyard at midnight in the dark of the moon, and went to New York feeling safe from all harm. The charm failed to work and now he is in a small pox hospital.

THE Louisville Times is right. Gen. Miles will never be president, nor even a candidate for the presidency. The fact will not be forgotten that he ordered President Jefferson Davis to be put in a dungeon and shackles placed on him.

WE eat, according to the treasury department, a barrel of flour, and 68 pounds of sugar each a year. That would seem to indicate that most of us live on cake.

POLITICAL.

At Des Moines, Ia., the House passed a joint resolution favoring the election of United States Senators by popular vote.

New York and Pennsylvania republican bosses, Platt and Quay, have declared for Roosevelt for president in 1904.

The democratic committee of the 4th Congressional district has been called to meet in Louisville, Saturday, 21st, to decide the time and method of nominating a candidate for Congress to succeed the Hon. D. H. Smith.

W. O. Bradley denies a report that he will be a candidate for governor. The Army Appropriation bill was passed by the House at Washington. Gov. Beckham vetoed the Dye bill, providing additional fees for officers. The State of New York will erect a \$100,000 monument to McKinley at Buffalo.

The governor is expected to allow the Revenue bill to become a law without his signature.

J. H. McMurtry has been appointed a storekeeper and gauger under Collector James Denton.

The House Committee on Foreign Affairs ordered a favorable report on the Chinese exclusion bill.

Gov. Beckham issued a proclamation naming April 24 as Kentucky Day at the Charleston Exposition.

Gen. Wood urges the necessity for removing the wreck of the battleship Maine from Havana harbor.

Gov. Beckham appointed Hons. Up-ton Muir and Matt O'Doherty the new circuit judges for Louisville.

The Iowa Senate passed a bill appropriating \$150,000 for monuments to Union soldiers who fell at Vicksburg. The governor approved the bill fixing the compensation of magistrates in service at court or committee meetings at \$3 per day.

Several bills have not yet been signed by Gov. Beckham. Those not signed by to-morrow become laws without his signature.

President Roosevelt will send a message to Congress asking proper legislative authority for the appointment of a minister to Cuba.

Speaker Henderson, of the House of Representatives, for the first time in 20 years' service, will have opposition for a renomination.

A bill in the Virginia Legislature authorizes women to carry arms. There should have been a rider providing for the necessary pocket.

Senator Deboe was beaten by Representative Boreling in his effort to be Kentucky's member of the Republican Congressional Committee.

Speaker Henderson was a caller at the White House and is supposed to have discussed with President Roosevelt the outlook for Cuban reciprocity. Maj. Gen. Elwell S. Otis was retired from the regular army, having reached the age limit. The war department issued a special order eulogizing his services.

Enough republican votes are said to have been found on the Ways and Means Committee to report the Cuban Reciprocity bill without the aid of democrats.

Senator Dolliver, of Iowa, in debate on the Oleomargarine Tax bill, denounced the industry in the severest terms, especially for what he claimed to be its evasion of the law.

Senator Mason will offer an amendment to the postoffice appropriation bill, appropriating \$150,000 for a wireless telephone or telegraph system between Washington and Chicago.

Gen. Funston resents newspaper criticisms of his speech relating to the capture of Aguinaldo, and he claims that his critics know more about the articles of golf than the articles of war.

Circuit Judge Patterson rendered a decision at Greensburg Tuesday in favor of Elliott Graham, democrat, whose election as county judge, had been contested by his cousin, J. H. Graham, republican.

Gov. Beckham vetoed the Colson bill for classification of cities and towns. The chief objection to the measure was that by its provisions the cities of Versailles, Princeton and Nicholasville were changed from the fourth to the fifth class.

In concluding his argument in support of his right to his seat in Congress, John S. Rhea made a bitter attack on McKenzie Moss, the contestant. The resolution of the committee minority in Rhea's favor was voted down, 137 to 127, one republican voting with the democrats and several others refusing to vote.

The four Kentucky republican members of Congress—Senator Deboe and Representatives Boreling, Irwin and Moss—held a meeting and elected Representative Boreling to represent the State on the Republican Congressional Committee. A meeting was held several weeks ago to take this action, but as Senator Deboe and Representative Boreling both desired the honor it was adjourned until Moss could be seated in the House.

The Farris bill, providing for registration in fifth-class towns, is missing and probably was stolen in the closing hours of the legislative session. It had passed both houses and was signed by Speaker Finn, but was never reported back to the Senate for comparison and for the signature of the president of the Senate. Its loss was discovered by Gov. Beckham. The theft of a bill is a felony and an investigation of the matter will be made by the Franklin county grand jury at its April term.

President-elect Palma will be inaugurated in Havana May 20. On the same day American control of the island will cease and only sufficient soldiers will be left on the island to man the coast defenses. If the Cuban government makes the request, other troops will be retained. Secretary Root was issued specific orders to Gov. Gen. Wood, in which he is directed to assemble the Cuban Congress on May 10 to adopt proper legislation for the assumption of full powers in the island.

We never exaggerate in price or quality.

This is what Henry Watterson had to say at a democratic banquet at Washington the other night: "Friends, brothers, democrats, let us have done with disunion. Let us turn our backs on the past, our face to the future, calling the old light off and the old score square. He who stands with me against these things is my comrade, no matter what he thinks or has ever thought about silver or gold. He who would deny me a place by his side to fight them must either be perverse or very blind. There will be but one test of a democrat in 1904—the line—the line—saying to arbitrary power absolutism: Thou shalt go no further; we too, are in the expansion business, but our expansion is for the religion of the Constitution no less than for the religion of Christ and Him crucified; our expansion means peace, not war; the honor, not the degradation of the flag."

CARNEGIE'S BUSY WEEK

Mr. Carnegie had a busy time planting libraries. The total for the week foots up 43 in the United States at a cost of \$35,500, and four more in Canada at a cost of \$90,000. Of those in the United States, Iowa gets 9, Indiana 7, Wisconsin 3, Illinois 3, Michigan 3, New York 2, New Mexico 2, Kansas 2, South Dakota 2, and Massachusetts, Montana, Nebraska, Colorado, Ohio, New Hampshire, Minnesota, New Jersey and Nevada one each. Mr. Carnegie began his library installation in 1899. In that year he established 34 at a cost of \$3,503,500; in 1900, 19 at a cost of \$570,000; in 1901, 109 at a cost of \$12,888,500; and this year, to date, 78 at a cost of \$2,336,000, making a total of 238 at a cost of \$28,307,000. Even at this rate, Mr. Carnegie will die rich if he doesn't mind, and be degraded according to his theory.

PNEUMONIA CAN BE PREVENTED. This disease always results from a cold or an attack of the grip and may be prevented by the timely use of Chamberlain's Cough Remedy. This remedy was extensively used during the epidemics of a gripe of the past few years, and not a single case has ever been reported that did not recover or that resulted in pneumonia, which shows it to be a certain preventive of that dangerous disease. For sale by Craig & Hocker, druggists.

A tramp rang the door bell of Dr. Mary Morrison's house the other day and when a pleasant faced woman came to the door he asked her if she would be so kind as to ask the doctor if he had an old pair of trousers to give a needy man.

CHURCH MATTERS.

Rev. R. B. Mahony will preach at the Baptist church Sunday.

Probably the most successful pastoral record in Louisville is that of the Rev. George Gowen, of the Broadway Christian church. Last week he baptized the third person, making a total of 170 additions to the Broadway Christian church since his pastorate began 17 months ago. And Mr. Gowen has been absent several weeks since he became pastor of the church, being in great demand for holding meetings, delivering addresses and attending other important engagements.—Courier Journal.

12 Minutes for Lunch.

That is the average time spent in a large city restaurant by three thousand lunchers. It takes three hours to digest a fresh egg soft boiled; three hours to digest a boiled apple dumpling; three hours to digest fresh roast beef. In fact, three hours is about the time required to digest the average twelve minute lunch. The object of the hasty lunch is to let the busy man get back to his office work. But when the brain is active, the stomach is inactive for lack of necessary blood. The natural consequence is indigestion, and indigestion opens the door to many diseases.

Indigestion is cured by the use of Dr. Pierce's Golden Medical Discovery, which cures diseases of the stomach and other organs of digestion and nutrition, and enables the perfect digestion and assimilation of food.

"It is with heartfelt gratitude that I send this testimonial which I wish you to publish with my name and address," writes Mr. Willis Seaman, of Washingtonville, Orange Co., N. Y. "I had stomach trouble from childhood and suffered with it more or less as I grew up. At the age of 21 I was taken down with dyspepsia. My suffering was terrible. Could not eat without distress. Could only eat a few certain things and was not able to work half the time. Every thing I tried only gave me temporary relief. My wife finally persuaded me to try Dr. Pierce's Golden Medical Discovery and 'Pleasant Pellets.' I took six bottles of the Golden Medical Discovery, and two weeks of Dr. Pierce's Pleasant Pellets. I then felt so well that I stopped taking anything. Several months have passed and I can do the hardest kind of work, can eat anything that is set before me and enjoy it. I am 27 years old and this is the first time I have ever been well."

Free. Dr. Pierce's Common Sense Medical Adviser in paper covers is sent free on receipt of 21 one-cent stamps to pay expense of mailing only; or 31 stamps for cloth-bound volume. Address Dr. R. V. Pierce, Buffalo, N. Y.
